Workflow: The Triple Chiquita

Source Data:
FBI Hate Crime Dataset
Election Data: Voter Affiliation
Religious Data per State

Clean Data:
Filter FBI data for 2009 & 2017 only to match available election data & reduce columns.
Election data reduced and filtered for relevant election years/candidates/political affiliation.
Religious data dropped n/a values, reduced columns.
Percentage religious makeup

Clean BIAS_DESC column for unique values.

Model Data:
Move totals per year into DFs to merge with other data sets and calcs.
Socioeconomic sourced from US Census api wrapper.

Create DF for each type of bias (racial, religious, gender, sexuality).

Test code:

Check for any issues with calculations, models, etc for errors.

Perform Analysis:
State by state per year for each variable.

Test Hypothesis and Present
